

Joint AIM - EHTEL Telehealth Study Visit to Berlin and Potsdam, Germany

Continuity of care and telemedicine/telecare service integration in the
German self-governed health system: collaboration of actors

Hosted by **HealthCapital Berlin Brandenburg**

Supported by telemedicine practitioners and German health policy / statutory health system actors

Rationale of the Joint AIM - EHTEL Study Visits with a focus on Disease Management and Personal Health Services in support of chronically ill patients and persons at risk: To better understand the (potential) integration of eHealth and telemedicine into an efficient organisation of health systems and services, to improve health care overall, to explore critical success factors and risks, to learn from the lessons of others and share experience about establishing telemedicine services as a routine option into daily clinical practice.

This study visit to Berlin and Brandenburg, DE is the 3rd of the bi-annual telemedicine study visits.

Monday, 5 November 2012, 14:00 – 18:00 [Potsdam]
